

Why Invest In This Crypto Bundle?

Innovation

DeFi not only recreates the traditional financial system, but improves on it, making it accessible to everyone. It renovates the current financial process automating and optimising important functions through the use of blockchains and smart contracts.

Undervalued

Investors often seek to invest in emerging technologies that disrupt current industries before they gain significant market share. The DeFi sector is currently valued at a mere 0.01% of the global stock and derivatives market and only 1.6% of the global banking industry- showing a major growth potential as it looks to disrupt this space.

Effortless Diversification

Own the 10 largest DeFi-based cryptocurrencies with one investment. Diversifying across the largest cryptocurrencies reduces the risks associated with investing in single coins and provides broad exposure to the growth of the DeFi crypto asset class.

Automatic Monthly Rebalancing

With automated monthly updates, this Crypto Bundle consistently realigns the holdings of gold and Bitcoin to their optimal weights. This fully automated approach makes investing effortless and saves you time.

Crypto Bundle Information

Launch Date	1 March 2021
Launch Price	\$1.00
Category	Crypto Assets
Base Currency	USD
Number of Constituents	10
Weighting	Market Capitalisation
Rebalancing Frequency	Monthly
Monthly Rebalance Fee	0.085% - 0.17%

About This Bundle

This theme-based Bundle enables investors to passively invest in a market capitalisation-weighted weighted Bundle of the 10 largest and most dominant DeFi-based cryptocurrencies as measured by market capitalisation.

By investing in this Bundle, investors can own a stake in the cryptocurrencies that are set to disrupt the world of traditional finance, banking and trading. This Bundle automatically rebalances every month, seamlessly adapting to market changes.

This document provides you with key investor information about our DeFi Bundle. It is an informative document containing both factual and subjective information as part of our educational and marketing material. We intend for this information to help you to better understand the nature and risks of investing in Crypto Asset Bundles. Please do further research and consult with your investment advisor before investing. The historical performance of this asset and/or bundle of assets is not illustrative of the future performance. The returns of this asset are historical and unaudited. These historical returns do not include the fees and expenses that are charged by Altify. Actual returns may differ materially from historical returns. Please refer to additional important disclosures at the end of this document.

Risk and Reward Profile

Important Risk Information

Investing involves risk, and you could lose money on an investment.

Crypto assets may be affected by changes in overall market movements, changes in interest rates, and other factors such as weather, disease, embargoes, or political and regulatory developments, as well as the trading activity of speculators and arbitrageurs. Frequent trading of crypto assets could significantly increase fees and other costs such that they may offset any savings from low fees or costs.

Diversification does not ensure a profit nor guarantee against loss. Investing in crypto assets entails a degree of risk and is not appropriate for all investors.

More About The Risk Category

- The risk category is based on the estimated future price volatility.
- The method used for this estimate depends on the historical price data.
- Historical performance is not a reliable indicator of future performance.
- The risk category allocated is not static and may vary over time.
- The risk of adding a new investment to a portfolio should be viewed in the context of the overall holdings in order to make the optimal decision.
- Crypto assets and stablecoins are a relatively new asset class and may be subject to other unknown risks that are not mentioned in this document.

Why This Risk Category?

- This product is placed in a risk category 7 because the expected volatility of its future returns are assumed to be very high.
- The Bundle invests solely in crypto assets and will be subject to the idiosyncratic volatility of this asset class. This requires the necessary risk tolerance and capacity.
- The value of Crypto Bundles may fall in value below the initial purchase price, therefore, future returns cannot be guaranteed.

Further Material Risks

- Crypto assets can be subject to a high degree of capital loss risk (i.e. the potential loss due to asset price depreciation).
- Investments in crypto assets are thought to carry a high degree of regulatory uncertainty (i.e. the regulatory framework for the governance of crypto asset service providers is still largely unspecified in many markets).
- Crypto assets may be subject to custodial risk (i.e. custodians, including exchanges, brokers and other intermediaries may not store customer assets in a manner that ensures negligible probability of theft).
- Crypto assets may be subject to liquidity risk (i.e. that the underlying assets lack marketability resulting in a purchase or sale price that cannot be obtained in the timeframe desired so as to prevent or minimise a loss).
- Crypto assets may be subject to tax risk (i.e. the tax laws in your country of tax residence or domicile may treat gains and/or losses from crypto assets differently to that of other asset classes. For information on the tax implications of the investment, please contact your tax advisor).

Legal Disclaimer

Revix UK Limited and its affiliates and operation subsidiaries (Collectively "Altify") offer crypto asset products and its associated Bundle technology as a means to gain direct, manageable, and secure exposure to the crypto asset market. Crypto Asset Bundles ("Bundles" or "Crypto Bundles") are not to be misconstrued as mutual funds, ETNs, ETPs, collective investment schemes or any similar fund structure. A Bundle is a proprietary investment management technology that allows Altify investors to directly trade and securely store a specified set of digital assets with defined operational rules.

The relevant affiliates and operating subsidiaries of Altify are only licensed, regulated and authorised to render services and products in accordance with the group regulatory status disclosure available [here](#).

Altify makes no warranties, express or implied, as to the products offered on its site. Altify's hypothetical returns represent a theoretical, back-tested, and unaudited return-stream. Back-testing is calculated by retroactively applying a financial model or index-weighting methodology to the historical pricing data to obtain returns. The hypothetical returns include fees that are charged by Altify. Actual returns may differ materially from hypothetical, back-tested returns. There can be no assurance that Altify's displayed pricing will accurately track its intended assets or otherwise achieve its investment objectives. Specifically, trading fees and rebalancing fees are expected to cause tracking errors between Altify's assets and Bundles and the intended tracking assets.

Crypto asset prices are volatile and it is possible to incur significant losses of invested capital. The value of crypto assets may fluctuate and returns are not guaranteed. An investment on the Revix platform should be considered long-term in nature. To the maximum extent allowed by law, Altify, its licensors, and their respective employees, contractors, agents, suppliers and vendors shall have no liability or responsibility whatsoever for any injury, damages or loss - whether direct or indirect, consequential, incidental, punitive or otherwise - arising in connection with Altify's products or any data or values relating thereto - whether arising from their negligence or otherwise. Without limiting any of the foregoing, in no event shall Altify have any liability for any lost profits or indirect, punitive, special or consequential damages or losses, even if notified of the possibility thereof.

The information, data, analyses, and opinions contained herein include the proprietary information of Altify, may not be copied or redistributed, do not constitute investment advice offered by Altify, are provided solely for informational purposes and are not an offer to buy or sell any asset, are warranted to be correct, complete, or accurate, and nothing offered by Altify shall constitute or be construed as an offering of financial instruments. All information provided by Revix is impersonal and not tailored to the needs of any person, entity or group of persons. Altify does not express an opinion on the future or expected value of any currency, security or other interest and does not explicitly or implicitly recommend or suggest an investment strategy of any kind. Before deciding to invest, prospective investors should read all definitive information relating to a product and pay particular attention to the risk factors related to the investment. Altify shall not be responsible for any trading decisions, damages, or other losses resulting from, or related to, this information, data, analyses, or opinions or their use.

This factsheet and all website-related content does not constitute an offer to subscribe for securities and is an offer to sell nor a solicitation to buy units or shares in any fund.

It is the responsibility of any persons wishing to acquire crypto assets using Altify's platform to observe all applicable legal requirements and tax consequences within the countries of their citizenship, residence, domicile, and place of business with respect to the acquisition, holding or disposal of the crypto asset, and any foreign exchange restrictions that may be relevant thereto. You should consult with your own attorney, accountant and other advisors about those matters including determining whether you may legally purchase cryptocurrencies using Revix's products.

Nothing in this factsheet is intended to create a contract for investment into Altify or any product, and each investor acknowledges that Altify will rely on this assertion of product holders' statements with respect to compliance with the laws of the jurisdiction in which the investor is legally domicile. This document may not be forwarded or redistributed without prior written consent of Altify.
